## Examination Results

### 2020-21

# Overview:

The results from the Summer 2021 examinations continue the rapid and sustained progress made in GCSE outcomes over the past few years. Whilst examination results are not the only outcome from the school they do provide an externally validated accreditation for the academic work of the school.

The Summer 2021 GCSE and A Level results were formed from TAGs (Teacher Assessed Grades) due to the Coronavirus Pandemic and the impact to schooling throughout the year. Our results were internally moderated by subject leaders and senior staff and also externally sampled by exam boards.

We are proud of all the achievements of our students.

# 3 Year Rolling Averages

A greater measure of consistency can be gained by using 3 year rolling averages in order to flatten out year on year variation and therefore to establish clearer trends.

The GCSE results over the last few years show sustained improvements to GCSE results across the school and reinforce the fact that the results of 2021 continue with the trend of recent improvements seen.

## Functional Skills

The number of entries for Functional skills was lower than in previous years, as more students took GCSE examinations. Also, due to TAGs, only students with full portfolios were entered.

## BTECs

There was a sharp drop in BTEC studies this academic year due to more students opting for GCSEs or college placements
