1. Introduction

1.1 SENAD Group Chief Executive and Board of Directors are ultimately responsible for compliance with the Health and Safety at Work etc. Act 1974 and associated regulations. The Health and Safety Executive (HSE) are responsible for enforcing the legislation relevant to the working environment. As an employer SENAD, as a corporate body, has the employer's responsibilities outlined; that is to ensure the health, safety and welfare of its employees and others who might be affected by its activities. If it neglects those duties, it could face prosecution, enforcement action by the Health and Safety Executive or, if anyone is injured, civil claims for negligence.

2. Scope

2.1 This document sets out the SENAD Group policy on health and safety. This policy will be supported by other policies, procedures, and guidance documents which will serve as a practical guide to the implementation of this policy.

3. Responsibilities

3.1.1 Legal duties are set out for both the employer and employees in accordance with the Health and Safety at Work Act and associated regulations

3.1.2 Employers duties- CEO Statement of Intent

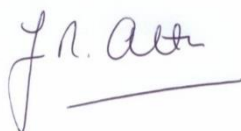

The SENAD Group is committed to achieving and maintaining the highest standards of Health and Safety by pursuing continuous improvements in our health and safety performance and will conduct our undertakings in such a manner that:

1. All work will be carried out in accordance with relevant statutory provisions, with all reasonably practicable measures taken to avoid risk.
2. Our premises will be maintained in a safe condition, without risk to health and wellbeing, with safe access and egress, and with adequate welfare facilities.
3. Health and safety will be centred on the needs of individual students and residents and our commitment to provide them with a safe, secure and comfortable environment to enhance their quality of life.
4. We will provide suitable and sufficient instruction and training to ensure all staff, agency workers under our direction and carry out safe working activities within a supportive health and safety culture. This will be further enhanced through continual learning, development and supervision to achieve best practice.
5. We will maintain safe and healthy working conditions, provide and maintain plant, equipment and machinery, and ensure the safe storage, handling, use and disposal of substances through safe systems of work.
6. Accidents and cases of work-related ill health, including injuries arising from challenging behaviours will be prevented wherever possible and where they do occur that they are properly investigated to determine the root cause and to enable controls to be put in place to prevent a recurrence.
7. We will engage and consult with employees, family care partners and our service users where possible on day-to-day health and safety matters and disseminate information on safe practice in a timely and unambiguous manner.
8. We have in place procedures to effectively deal with emergencies, for example evacuation in case of fire or other significant incidents.
9. We will ensure adequate resources are available to ensure the health safety and welfare of persons on SENAD Group premises.

Accountability for health and safety lies with our senior leadership team. The CEO delegates operational responsibility for Health and Safety to the Directors within their areas of responsibility.

He will in turn ensure health and safety is given priority in all aspects of SENADS undertakings with the support of other directors.

Richard Atkinson
Chief Executive Officer & Finance Director
September 2024

The Chief Executive, Executive Directors, and other Senior Managers

In addition to having the same general duties as all other employees, the organisation's senior managers have additional duties to ensure that, as policy makers and managers,

they do not neglect health and safety, set an example, and encourage a positive health and safety culture within the organisation.

3.1.3 Employee's duties

As employees we all have duties; these are:

- To take reasonable care of ourselves
- Not put our colleagues or others at risk
- Co-operate with our employer on health and safety matters
- Follow/adhere to safe working procedures - including using any safety equipment or personal protective equipment provided
- Not to interfere with or misuse anything provided for health and safety purposes (guards on machines, signs on the wall, etc.); and
- Inform employer of any health and safety issues.

3.4 Specific Duties

3.4.1 Chief Executive Officer (CEO) The Chief Executive Officer has overall responsible for the health, safety and welfare of all employees and service users of the SENAD Group for and on behalf of the Board of Directors whilst they are at work on Company premises or on Company business. This responsibility is extended to the health and safety of non-employees whilst on Company property or activities.

3.4.2 Directors

All Directors are in a position of authority and play a significant role in the management of the organisation's activities. As decision-makers within the company they will decide corporate policy and agree strategy within their associated areas of responsibility be that Adult Care, Children's Care, Education or Human Resources.

Key responsibilities-

- To oversee the implementation of the "Statement of Intent" and the arrangements contained within the policies for and on behalf of the CEO and board of Directors.
- With the involvement of relevant stakeholders' quality assure the specific health and safety policies through annual review and when there are changes to legislation or guidance.
- To ensure all adverse health & Safety events are thoroughly investigated, reported and suitable measures taken to prevent a recurrence within services under their remit and work collaboratively with relevant regulators and organisations to ensure high standards of safety management.

Duties may be delegated in order for the Health and Safety policy to be successfully implemented. Primarily delegated duties are identified in the sections below.

3.4.3 Group Health and Safety Officer

Main delegated responsibilities:

- To act as the company's adviser in law as defined under Regulation 7 of the Management of Health and Safety at Work Regulations 1999
- To support the directors in operational risk mapping, the implementation of risk management and reduction programmes and projects for Heads of Service and Registered Managers
- To advise in all aspects of health and safety across the Group with authority and independence of operational units.
- To review, develop and monitor sound policies and procedures across the SENAD Group with agreement of the directors. Where relevant ensure they are part of the Central ISO 9001 system.
- To advise management in the implementation of the health and safety policies and procedures.

Key Tasks:

- Provide advice to Directors, management, employees and representatives in all health and safety matters within their levels of competence.
- Review current practice and develop policies and procedures with agreement of the Directors in accordance with legislation and guidance to achieve best practice and ensure continual improvement.
- Promote a positive culture and commitment to health and safety across the Group.
- Plan, implement and regularly monitor internal health and safety systems and standards in accordance with current guidelines.
- Interpret legal requirements and apply them within the context of the Company.
- Establish and maintain accurate and efficient reporting systems for accidents and incidents.
- Review and systematically assess incidents / accident trends and clusters.
- Maintain accurate information and reference systems.
- Liaise and maintain good working relationships with the Health and Safety Executive Inspectorate and other enforcing authorities.
- Liaise with the Companies insurers maintaining an effective efficient system for reporting RIDDORs and other incidents where required.
- Work with insurance providers to ensure adequate arrangements are in place.
- Any other duties reasonably delegated and expected of a Group Health and Safety Competent Advisor.
- **Liaise with, and refer to as necessary for advice & guidance to the Health & Safety Competent Advisors (ARION LTD) as and when required**

3.4.4 Health & Safety Competent Advisors (ARION LTD)

The Health & Safety Competent Advisors are able to support the Group Health and Safety Officer & Board of Directors, with a full suite of guidance & assistance in relation to health & safety matters, as and when required.

3.4.5 Quality Assurance Manager

Main responsibilities:

- To identify any health and safety issues as part of monitoring visits
- Work collaboratively with regulators to ensure best practice and continual improvement with regards both staff and service user safety.

- To bring to the attention of the Heads of Facilities or the Group Health and Safety Officer appropriate any health and safety concerns reacting to safe environment and safe working.
- To liaise & support the Groups Health and Safety Competent Advisor in ensuring appropriate policies are in place.

3.4.6 Heads of Facilities, Registered Managers, Principals, Head of Adult Services.

Key Responsibilities-

- To ensure the effective implementation of the Group Health & Safety policies at all facilities within their control. They may delegate some of the duties in order to achieve this, but are responsible for ensuring that these duties are carried out with due regard to statutory legislation and guidance.
- To report on health and safety issues to the Group Health & Safety Officer via monthly reports and regular meetings.
- Make sure suitable and sufficient risk assessments are carried out, revised, renewed and updated as required.
- Consult with staff on all matters that may affect their Health and Safety of staff and that of service users, visitors and contractors.
- Ensure that amendments to the Health and Safety policies are brought to the attention of all employees under their control and are suitably embedded into practice.
- Ensure that Health and Safety training is delivered on induction, and refreshed during their development.
- Ensure all staff work to and adhere to safe working practise.

3.4.7 Group Training and Development Manager

Delegated responsibilities:

- To work with the Groups Health and Safety Officer with regards technical input into training content as appropriate.
- Deliver to all employees relevant training relating to health and safety matters
- To ensure training needs analysis at company and individual level to inform the planning, development and implementation of the training programs with regards statutory and mandatory safety training requirements.
- To keep up to date records of training for all staff.
- Manage the training team of staff and ensure their skills are appropriate to deliver training in the areas within their scope of work.

3.4.8 Group Property and Facilities Manager

Delegated responsibilities:

- The Property and Facilities Manager has delegated responsibilities for the Control of Contractors on SENAD Sites and overall responsibility for Property Safety, Facilities and Fire Management.
- Responsibility for maintaining, management and retention of all property related registers, information and regulatory documentation in line with the requirements of legislation and guidance
- Responsibilities for ensuring Legionella Management is in line with Legislation. Approved codes of practice and associated guidance.
- Ensuring robust fire safety management in all services in line with legislation and guidance- See separate policy.

Specific responsibilities:

- To liaise with the Group Health and Safety Officer regarding technical advice and support on property related issues.
- Report through monthly, weekly, informal meeting any issues related to properties that require health & safety input.
- Ensure that all schemes under his remit are carried out in accordance with The Construction and Design Management Regulations 2015.
- Ensure that appropriate training and guidance is given to site managers to ensure they are aware of their duties under the CDM Regulations
- Ensure that property teams have adequate information, instruction, supervision and training in relation to the tasks they are undertaking.
- Ensure the company meets its legal obligations with regards to the control of Legionella, and all aspects of Water safety.
- Ensure the company meets its legal obligations with regards to the prevention of exposure to asbestos.
- Ensure the company meets its obligations in relation to fire safety.
- Ensure the company meets its obligations in relation to utilities safety, gas, oil, electricity and other sources of power.
- Ensure that suitable procedures are established with the groups insurers and maintain an effective and efficient system for reporting accidents and incidents to the Groups property portfolio.

3.4.9 Group Transport Manager

Delegated responsibilities:

The Transport Manager has the delegated responsibility of all vehicles within the group to ensure they comply with all legal and company policies and is operated in accordance with Road Transport Law and the Operator's Licence.

Specific responsibilities:

- To liaise with Head Teachers and Managers at all locations providing support and advice on all matters relating to transport.
- To maintain a vehicle database for, scheduled servicing, repairs, MOT etc for vehicles at all locations
- To monitor vehicle files, service history and to advise all locations and appointed garages of any problems.
- Maintain & review the Company Transport Policy and update on a regular basis.
- Monitor all vehicle costs and to advise the Financial Director, Heads and unit Managers accordingly.
- To liaise with appointed garages regarding the repairs and servicing of all vehicles.
- Carry out risk assessments with regard to any aspect of transport.
- Liaise with the Companies insurers maintaining an effective system for accident reporting and repairs. Create and maintain accurate accident records.
- Liaise and maintain a good working relationship with the Department of Transport and the office of the Traffic Commissioner and any other enforcing authority.
- Interpret legislation and apply this where relevant to the Company's operation.

- Ensure periodic checks on vehicles at all locations are completed and action any defects found on the check.
- To work with managers to ensure grey fleet vehicles within their area of responsibility (own vehicles) being used on company business have the relevant insurance and are maintained in a road worthy condition.
- Implement and monitor/oversee DVLA driver licence checking system with an appointed outside agency.
- Ensure driver compliance with the Substance misuse policy and procedure for all staff
- To have systems in place to address driver fatigue, fitness to operate vehicles and changes to licences for medical conditions to ensure driver safety
- To ensure provisions are in place for fuel and to deal with vehicle and medical emergencies whilst travelling on company business for example first aid, fire and tools for emergency escape.

3.4.10 Line Managers and Team Leaders

Under the Head of Facility, Line Managers and Team Leaders are responsible for the day-to-day management of premises and staff under their control to ensure a safe place to work, appropriate welfare facilities and safe practice with regards health and safety as identified in company policies and procedures.

Line Managers and Team Leaders will ensure that they are familiar with the content of all safety related policies and arrangements required to be in place to secure the Health and Safety of persons under their control.

Their duties include the following:

- To ensure that all employees, contractors and visitors working in or entering their area of control are familiar with the relevant safety procedures, understand management and safety expectations and follow procedures as laid down.
- Ensuring that all work equipment is suitable for purpose and maintained in a safe condition at all times.
- To ensure that substances are suitable for purpose, safely used and stored in an appropriate manner so as not to pose a risk to vulnerable persons.
- Ensure the competence of staff under their control by identifying training needs, arranging for the necessary information, instruction and ensuring adequate supervision.
- Bringing to the attention of the next level of management any safety issues that cannot be resolved at a local level.
- Monitoring the workplace to ensure that safe conditions are maintained for all persons within the facility.
- Carry out and implement suitable and sufficient risk assessment and update, review and amend as required.
- Recording, reporting and investigating all accidents and incidents within their areas of control, and liaise /involve the Group H&S Officer.
- Maintaining safe access and egress to and from places of work.
- The communication of information on health and safety issues to staff under their control and ensuring the information has been understood and put into practice.

3.4.11 Health and Safety Officer/ Link / Co-ordinator (where appointed)

Safety Officers/ Co-ordinators are responsible for liaising with the Groups Health and Safety Competent Advisor and co-ordinating all health and safety issues at their site.

This will include:

- Working within the limits of their own level of knowledge, skills and competence and seeking appropriate advice from the Groups Health and Safety Officer or other competent advisors as appropriate to ensure safe practice.
- Ensuring that health and safety arrangements are communicated to all staff, ensuring that any amendments are brought to the attention of the relevant managers and staff.
- Ensuring that all relevant safety documentation is kept up to date and available on site at all time.
- Conducting safety inspections and record findings. Any actions required that cannot be dealt with at the time of the inspection to be brought to the attention of the Head of the site.
- Participate in Operational Group Health and Safety meetings with Group Health and Safety Officer.

3.4.12 Buildings Service Manager

The Buildings Service Manager is responsible for the monitoring and co-ordination of the arrangements contained within the fire policy.

Their specific duties include:

- Undertaking suitable and sufficient fire risk assessments and ensuring the findings are actioned.
- Overseeing fire remedial actions to ensure they are undertaken by competent persons and meet the relevant standards to prevent fire and mitigate any losses from fire.
- Ensuring safety messages with regards fire are communicated in a timely manner and are aligned to the guidance for those particular services.
- Dealing with any notices of deficiency, alteration, enforcement or prohibition notices within the required time frames to prevent harm and legal action.
- Working in cooperation with other safety professionals and organisations to achieve best practice.
- Keep up to date with regards changes to legislation and guidance to ensure safe practice.

3.4.13 Fire Marshals and site Fire Co-ordinators

Their specific duties include:

- Maintaining on site fire safety arrangements including the Fire Logbook and fire safety walk around inductions of new staff.
- Co-ordinating the weekly fire alarm tests on rotation

-
- Carrying out Fire Safety walk around inspections (to include fire-fighting equipment, fire escape routes, escape lighting and fire doors)
 - Liaising with the local fire authority
 - Arranging fire and evacuations drills. Maintaining records of these evacuations (planned or otherwise)
 - Reporting issues of fire safety to the Head of Facility

3.4.14 Employees duties

Employees have a duty to:

- Follow the policies and procedures of the company and any information and training they have received when at work.
- Take reasonable care of their own and other people's health and safety.
- Co-operate with management on matters of health and safety.
- Not intentionally or recklessly interfere with or misuse anything provided by SENAD in the interests of health, safety or welfare.
- Tell someone (your manager, supervisor, or the Group Health and Safety Officer) if you think the work or inadequate precautions are putting anyone's health and safety at serious risk.
- Report all near misses

3.4.15 Contractors, Service Providers and Consultants

These persons may be working on behalf of SENAD or on SENAD sites in relation to construction, maintenance, food service, training, or waste management. They must within the remit of their role:

- Provide evidence of qualifications, accreditations and insurance.
- Ensure safe equipment, inductions and safe systems of work.
- Liaise with Service Heads to ensure risk assessments, method statements and schemes of work are shared to enable onsite risks to staff and service users to be managed effectively
- Follow on site rules with regard health, safety and security
- Report any accidents, incidents, or near misses in relation to their undertakings whilst on SENAD sites.
- Take account of the complex needs of the service users we support.
- Provide suitable documentation and records of work undertaken as required by legislation and guidance.
- Report all near misses and accidents
- Comply with all company rules and requirements which may change from time to time.

3.5 Other responsibility

Over and above general responsibility listed, there are further additional appointed roles to ensure good health & safety compliance

3.5.1 Strategic Health and Safety Group

The Committee, chaired by the 'Nominated' Director, Executive Director of Workforce Management, takes a strategic overview of health and safety issues

affecting the Group; it is also charged with ensuring best practice in health and safety across the SENAD Group.

To ensure that health and safety is considered at the very highest level, the committee chair has direct input into the board of directors.

3.5.2 Operational Health and Safety Group and Risk Groups

The SENAD Group has a legal duty to establish safety committees and consult employees on matters of health and safety. Consequently, the Strategic Health and Safety Committee have established an Operational Health and Safety Group that should include site team health and safety advisers, safety links, heads of service, and participants from across each department within SENAD. Operational Health and Safety Group will be chaired by the Group Health and Safety Officer. All issues and findings will be reported to the Strategic Health and Safety Group.

3.6 Policy development

We will keep our health and safety policy and management system (including standards and guidance) under regular review to ensure they remain current and effective.

When developing policies and other health and safety standards and guidance, we will have due regard to equality issues and risk assessment guidelines and will ask managers to consider any additional issues raised by a person's requirements under the Equalities Act.

All policies, procedures, standards and guidance, and revisions to them will, if appropriate, be authorised by the Chief Executive or an appropriate Director.

Documentation will be dated to help ensure effective document control and outdated documents will be removed from general circulation.

3.7 Cooperation, consultation, and communication

We will consult with staff and appropriate representatives in the development and monitoring of our health and safety systems, policies, procedures, and risk assessments.

Our policies, procedures and assessments will be made available to staff via the SENAD shared drive and/or via printed copies. Staff will be made aware of any policy/assessment appropriate to their post.

Additional guidance is available on the Group SharePoint.

3.8 Planning and prioritising

We will ensure that health and safety is embedded into all our activities and that effective health and safety management systems, including health and safety plans are in place.

Planning will be carried out at regular intervals and will involve objective setting, identification of expected outcomes, allocation of resources and assignment of tasks.

We will ensure that suitable risk assessments and controls are in place to minimise risk as far as is reasonably practicable and to prevent accidents and cases of work-related ill health.

3.9 Measuring health and safety performance

We will undertake a range of **active** and **reactive** monitoring of our health and safety performance

Active monitoring – will include regular inspections of the workplace/self-auditing by the managers to ensure our premises and systems of work are safe.

Reactive monitoring – will include regular reviews of our accident, near misses, aggressive incidents and hazard reports by senior management teams and our health and safety committees/the Board to ensure appropriate remedial action is taken to help prevent recurrence.

3.10 Auditing/inspecting health and safety performance

As part of our active monitoring, we will carry out regular health and safety inspections/self-audits in accordance with our health and safety plans. In addition, regular audits of our health and safety management systems will also be carried out by the Group Health and Safety Officer on a prioritized basis.

3.11 Reviewing health and safety performance

Our health and safety performance, including progress on our health and safety plans and targets, active and reactive monitoring outcomes and any policy or procedure reviews will be evaluated by the Board and health and safety groups as appropriate.

3.12 General Arrangements

The general arrangements outlined below along with supporting policies, health and safety management guidance published by the Group Health and Safety Officer all constitute part of the SENAD Group safety management system and must be followed by all staff.
