

Visiting Family - A Trip to Ireland

A was supported to visit his family who live in Ireland.

A travelled with his Operations Manager Jack to Birmingham airport, where they looked around duty-free and watched all the airplanes taking off and landing.

The flight was quite bumpy as it was a very windy day, but with support from Jack, A was able to remain calm and overall he enjoyed the flight.

While in Ireland A spent time with his family, visiting his nan and drawing her lots of pictures. He also spent time outdoors in the countryside surrounding the family home. There is a tree in the back garden which he loves to sit under and watch nature, whilst listening to music.

Jack went back to Ireland to pick A up, it was a bit rushed as the queue for security was long, but they made the flight!

A loved being with his family but he was also very happy to be back home.
